

STA Tea Talk

Topic : Planted Forests in Sarawak

There will be 3 speakers in this Tea Talk. The first speaker will cover policy, legal aspects of and the rationale for planted forests in the State of Sarawak, including tree species and areas planted to date. The second speaker will introduce the scope of Research and Development programmes carried out by the Sarawak Forestry Corporation in support of the establishment of planted forests such as site-species matching, tree improvement, pests and diseases control and seed technology, including wood processing, wood properties and utilization. The third speaker, will talk about the activities of Sarawak Planted Forests Sdn Bhd, a government-owned company responsible for the planted forests project in Samarakan, Bintulu, Sarawak.

Come and attend this Talk to know more about the importance of planted forests in Sarawak.
